

7th Annual Mira Loma Science Olympiad Invitational

4000 Edison Avenue Sacramento, CA 95821

Science Olympiad teams are invited to participate in the Mira Loma High School Science Olympiad Invitational Tournament for both **B & C** Divisions.

WHEN: Saturday, January 11, 2020

Cost: \$150 per team. The funds are used for awards, custodial costs, and other Science Olympiad expenses.

WHERE: Mira Loma High School, 4000 Edison Avenue, Sacramento, CA 95821

NUMBER OF TEAMS: We will run a 30-team C division invitational and a simultaneous 30-team B division invitational.

RUNNING EVENTS: Each competing team will be responsible for running up to two events, although likely only one event per team will be required. This includes writing the tests, bringing all necessary equipment and materials for the event, scoring the tests, etc. Please ensure you have a strong proctor available for any event(s) you're volunteering to run. If 60 teams register, each team will supervise one event; if fewer teams register, some may need to set up and run 2 events. A copy of the blank event exams and answer keys will be distributed to all schools present at the invitational after the competition.

EVENTS: We intend to run all events from the 2020 national tournament (availability of event supervisors and weather permitting). Trial events are also a possibility (we have run them the last couple of years).

Further information: <http://www.sanjuan.edu/Domain/3878>

Registration: The electronic registration opens September 10th at 3:30 p.m. (Pacific) and, initially, only one team per school will be registered. On October 1, we will start accepting second teams. If you are interested in bringing a second team, state so in your original registration. Registration deadline is technically December 1 but, for the last couple of years, we have filled up when we opened up our registration to second teams.

Questions: Read the website and flier material completely, we tried to address as many questions as possible there. If you still have a question, email the tournament director.
